

FISHABILITY - RESUMPTION OF ACTIVITIES – COVID-19

In order to minimise the risk to both *Fishability* clients and volunteers, *Fishability* will be observing current Western Australian Government COVID-19 protocols when our activities recommence in February 2021.

This involves:

- Providing hand sanitiser for use by all attendees at *Fishability* events;
- Ensuring that 1.5 metre physical distancing is adhered to for all attendees at all *Fishability* jetty activities, and at our boat fishing programs; and
- Ensuring that fishing rods are sanitised before and after use, and before use by another person during a *Fishability* activity.

Fishability requests that neither clients or volunteers attend *Fishability* activities if they are unwell.

More safety guidelines are available at the [Healthy WA website](#).
